Clearing Your Cache Mozilla Firefox Version 46

Why? Your browser may remember, and display, old versions of web pages and data even after you make changes. Clearing the cache ensures the most up to date information is displayed.

- 1. Click on the three horizontal bars in the upper right hand corner, and then "Options".
- 2. Click on "Advanced".
- 3. Click on the "Network" tab and then the "Clear Now" button in the "Cached Web content" section.
