Clearing Your Cache Microsoft Internet Explorer Version 09

Why? Your browser may remember, and display, old versions of web pages and data even after you make changes. Clearing the cache ensures the most up to date information is displayed.

- 1. Click on the "Tools" icon, the gear in the upper right hand corner (or Alt-X on the keyboard). Choose "Internet options" from the menu.
- 2. While on the "General" tab, click on the "Delete" button in the "Browsing history" section.
- 3. Make sure checks are in the boxes labeled "Temporary Internet files and website files", Cookies and website data", and "History". Then click on the "Delete" button. After it finishes, click "OK".

	💮 🛣 🐺	Internet Options	Delete Browsing History
Print File) 	General Security Privacy Content Connections Programs Advanced Home page	Preserve Favorites website data Keep cookies and temporary Internet files that enable your favorite websites to retain preferences and display faster.
Zoom (100%) Safety) 	Inttp://www.modern.ie/vmhome?IEVersion=9&Guest Use current Use default	 Temporary Internet files Copies of webpages, images, and media that are saved for faster viewing. Cookies
View downloads Manage add-ons	Ctrl+J	Browsing history Delete temporary files, history, cookies, saved passwords, and web form information.
