

DHS IM Training Updates

May 13th, 2021:

The SSA Safeguarding Personally Identifiable Information (PII) training has been re-published to the DHS Learning Center. The following updates were made to the training:

- Information added on where to report security incidents
- Internal DHS website resource link removed

Note: Workers who had previously completed the prior version of the SSA Safeguarding Personally Identifiable Information (PII) training will not need to re-take this training to meet the annual training requirement outlined in Training Admin 17-07.

The SSA Safeguarding Personally Identifiable Information (PII) training can found on the DHS Learning Center by searching with the keyword “SSA” in the Course Search section.
